
TAR Completion for Long Term Care

Page updated: April 2024

«In Medi-Cal fee-for-service, the *Long Term Care Treatment Authorization Request* (LTC TAR, form 20-1) is used to request authorization for all Medi-Cal recipients admitted to a Nursing Facility (NF).» The LTC TAR form is initiated by the NF. For online eTAR submissions, refer to the [eTAR User Guide: Inpatient, Outpatient, & Long Term Care Services](#) on the Medi-Cal Providers website.

Note: Nursing Facility Level A (NF-A) replaces Intermediate Care Facility (ICF) references, and Nursing Facility Level B (NF-B) replaces Skilled Nursing Facility (SNF) references.

«As of January 1, 2024, Intermediate Care Facilities for the Developmentally Disabled (ICF/DD) under a Managed Care Plan (MCP) are required to use the *MCP ICF/DD Authorization Request* form in lieu of the LTC TAR, form 20-1. For recipients who remain in fee-for-service, providers will continue to use the LTC TAR, form 20-1.

Note: The *MCP ICF/DD Authorization Request* form requirement applies to the following facility types:

- Intermediate Care Facilities for the Developmentally Disabled (ICF/DD), as defined in Health and Safety Code (H&S) section 1250 (g),
- Intermediate Care Facilities for the Developmentally Disabled- Habilitative (ICF/DD-H) as defined in H&S 1250(h), and
- Intermediate Care Facilities for the Developmentally Disabled- Nursing (ICF/DD-N) as defined in H&S 1250(e).

Note: ICF/DDs are often referred to as ICF/DD Homes.»

Code of Federal Regulations (CFR), Title 42, Section 440.155(a)(1) defines nursing facility services as those provided in a facility that “fully meets the requirements for a State license to provide, on a regular basis, health-related services to individuals who do not require hospital care, but whose mental or physical condition requires services that – (i) are above the level of room and board; and (ii) can be made available only through institutional facilities[.]”

Federal law allows continuity of care protections for individuals to receive medically necessary intermediate care services at the NF-B where they are receiving medically necessary skilled nursing services. If a Medi-Cal recipient needs intermediate care services, but the NF-B facility is not licensed to provide intermediate care, the facility can arrange for transfer to a facility that provides intermediate care services if the recipient is ready for transfer and there are beds available in that facility. While the recipient is awaiting transfer, the NF-B shall continue to provide medically necessary services to the recipient until another facility is available.

«After the facility receives approval of the LTC TAR or the *MCP ICF/DD Authorization Request* form, the 11-digit TAR Control Number (TCN) is entered in the appropriate box on the *UB-04* claim form.»

- For providers who submit TARs using the paper LTC TAR (20-1) form, a nine-digit number is provided and the provider must add two zeros at the end to complete the 11-digit TCN.
- For providers who submit electronic TARs (eTARs), a 10-digit number is provided, and the provider must add a zero at the end to complete the 11-digit TCN.
- For providers who submit the *MCP ICF/DD Authorization Request*, the number of digits provided may differ depending on the MCP. The provider must add the necessary zeros at the end to complete the 11-digit TCN.

Do not attach a copy of the LTC TAR or the *MCP ICF/DD Authorization Request* form to the *UB-04* claim form. Enter the TCN only in the appropriate space. For additional *UB-04* claim completion instructions, refer to the *UB-04 Completion: Long Term Care Services* section in this manual.

Note: Verbal authorization is not available for NF or ICF/DD admissions. For additional information on LTC TARs, refer to the *TAR for Long Term Care: 20-1 Form* section in this manual. For additional information on the *MCP ICF/DD Authorization Request* form, refer to the “Explanation of MCP ICF/DD Authorization Request Form Items” heading in this section below. »

Glossary

The following terms apply to NF:

Preadmission Screening and Resident Review (PASRR)

PASRR is a federally mandated program that applies to all individuals being admitted to a Medicaid certified NF. The PASRR program determines the appropriate level of care and specialized services for all Medicaid certified NF admissions that have been identified with a serious mental illness (MI) or intellectual/developmental disability (ID/DD) or related conditions (RC). The PASRR must be completed prior to the individual's admission to the Medicaid certified NF. For more information, refer to the *Preadmission Screening and Resident Review (PASRR)* section in this manual.

«**Note:** The PASRR is not used for any ICF/DD.»

PASRR Level I Screening

Level I is the first level of screening for PASRR. The purpose of the Level I is to screen or assess if individuals admitting to Medicaid certified NFs have a diagnosis or suspicion of a MI/ID/DD/RC. The Level I screening must be submitted in the PASRR online system by the provider. If a suspected or diagnosed MI is identified on the Level I screening, then the Level I will automatically be sent to the state's third party contractor for a possible Level II evaluation. If a suspected or diagnosed ID/DD/RC is identified on the Level I screening, then the Level I will automatically be sent to the Department of Developmental Services for a possible Level II evaluation.

PASRR Level II Evaluation

The PASRR Level II evaluation determines the appropriateness for NF care and if there is a need for specialized services. For MI, the Level II evaluation is performed by the state's third party contractor. For ID/DD/RC, the Level II evaluation is performed by DDS. For more information, refer to the *Preadmission Screening and Resident Review (PASRR)* section in this manual.

Minimum Data Set for Nursing Home Resident Assessment and Screening (MDS 3.0)

The State has designated the *Minimum Data (Set (MDS) – Version 3.0 for Nursing Home Resident Assessment and Care Screening (MDS 3.0)* form as the Resident Assessment Instrument (RAI) to be used by NFs certified by the State to participate in the Medicare and Medi-Cal programs. These NFs are required to conduct resident assessments on a regular basis using the MDS information. For further information on the MDS 3.0 and the *Quarterly Assessment Form 2.0*, refer to the *TAR for Long Term Care*.

Explanation of Form 20-1 Items

The following item numbers and descriptions correspond to the sample *Long Term Care Treatment Authorization Request* (Form 20-1) on a previous page in this section.

Table of Form 20-1 Items and Explanations: Top Segment of Form

Form Item	Description
1.	State Use Only. Leave blank.
1A	Claim Control Number (CCN). For FI use only. Leave blank.
1B	<p>Transfer, Initial, Reauthorization. Enter an "X" in the appropriate box.</p> <p>Transfer: Indicates admission to an NF-B from another NF-B or admission to an ICF/DD-H or ICF/DD-N from another ICF/DD-N.</p> <p>Initial: Indicates new admission other than a transfer.</p> <p>Reauthorization: Indicates request for extension of an authorized period.</p>
1C	<p>«Skilled Nursing Care, Intermediate Care, ICF/DD, Special Program Certification For Special Treatment Program Services Form (DHCS 0231) Attached. Enter an "X" in the appropriate box. Subacute facilities annotate S/A next to the SNF box to clarify level of care requested.»</p> <p>Skilled Nursing Care (SNF): Care given a recipient who does not require the full range of health care services provided in a hospital as hospital acute care or hospital extended care, but who requires skilled nursing care on a continual basis. This is now known as NF-B.</p> <p>Intermediate Care (ICF): Care given to a recipient whose medical condition requires an out-of-home protective living arrangement with 24-hour supervision and skilled nursing care or observation on an ongoing intermittent basis to abate health deterioration. Intermediate care services emphasize care aimed at preventing or delaying acute episodes of physical or mental illness and encouragement of individual patient independence to the extent of their ability. This is now known as NF-A.</p> <p>«ICF/DD-H and ICF/DD-N: Care given a recipient with chronic developmental disability. (Note: Attach Form DHCS 0231 to the LTC TAR.)»</p>

Table of Form 20-1 Items and Explanations: Top Segment of Form (continued)

Form Item	Description
1C (continued)	<p>«Skilled Nursing Care, Intermediate Care, ICF/DD, Special Program Certification For Special Treatment Program Services Form (DHCS 0231) Attached (continued).</p> <p>Facilities certified to bill for special programs (such as the Mentally Disordered Rehabilitation Program) and facilities approved for ICF-DD level of care must attach form DHCS 0231 to the LTC TAR when requesting initial authorization and reauthorization.</p> <p>Form DHCS 0231 may be approved for up to two years, depending on the type of special program involved. Once the approved period on form DHCS 0231 expires, a new form must be filled out and signed by the appropriate agency. Form DHCS 0231 should be submitted with all initial and reauthorization TARs identified above. Subsequent DHCS 0231 forms are to be maintained on file by the facility and must be reviewed by the Medi-Cal consultant.</p> <p>Note: If the facility does not receive form DHCS 0231 before the initial written LTC TAR is submitted, the facility should submit the LTC TAR anyway. The LTC TAR will be date-stamped on receipt and returned to the facility without approval. When form DHCS 0231 is received, the facility should resubmit the LTC TAR for approval with form DHCS 0231 attached.»</p> <p>If you check the <i>Special Program Form 231 Attached</i> box, you must check either the <i>Skilled Nursing Care</i> box or <i>Intermediate Care</i> box.</p>
