
Local Educational Agency (LEA) Billing Codes and Reimbursement Rates

Page updated: September 2024

This section contains a list of procedure codes that are reimbursable in connection with the Local Educational Agency (LEA) Medi-Cal Billing Option Program. Maximum allowable rates and the types of qualified rendering practitioners who may perform the services are detailed in this section.

Reimbursement Rates

The Federal Medical Assistance Percentage (FMAP) reimbursable for LEA services is applied to the Medi-Cal maximum allowable rates listed in the “LEA Services Billing Codes Chart” in this section. Medi-Cal LEA reimbursement rates are determined by applying the current FMAP to the maximum allowable rate, or the rate billed by the LEA, whichever is less, per federal financial participation (FFP) regulations. The current FMAP is 50 percent.

Note: «COVID-19 vaccine counseling services billed with the “CR” modifier under CPT codes 99401 thru 99404, are paid at 100 FMAP through September 30, 2024. For dates of service on or after October 1, 2024, COVID-19 vaccine counseling services billed with the “CR” modifier will revert back to the standard 50 percent FMAP.»

LEA Services Billing Codes Chart

The “LEA Services Billing Codes Chart” on the following pages in this section is a quick reference guide to each LEA service. The chart identifies the following:

- LEA-reimbursable CPT® and HCPCS codes (with descriptors)
- Modifiers
- Service time requirements for “initial” and “additional” services
- Qualified practitioners
- Medi-Cal maximum allowable rates
- Services reimbursable when rendered via telehealth

The chart divides information into four categories:

- Individualized Education Plan (IEP)/Individualized Family Services Plan (IFSP) assessments
- Assessments (non-IEP/IFSP)
- Treatments and transportation
- Targeted case management

Telehealth Services In Billing Codes Chart

The note “Add modifier 95 if via telehealth” is added to the “LEA Services Billing Codes Chart” to help providers identify services that can be rendered by telehealth (via interactive telecommunications equipment). When used, the “Add modifier 95 if via telehealth” note is located in the first column, which is labeled “Procedure Code/Modifier.”
