Medi-Cal Companion Guide Transaction Information

Preface

The Companion Guide (CG) may contain two types of data, instructions for electronic communications with the publishing entity (Communications/Connectivity Instructions), and supplemental information for creating transactions for the publishing entity while ensuring compliance with the associated ASC X12 IG (Transaction Instructions). Either the Communications/Connectivity component or the Transaction Instruction component must be included in every CG. The components may be published as separate documents or as a single document.

The Communications/Connectivity component is included in the CG when the publishing entity wants to convey the information needed to commence and maintain communication exchange.

The Transaction Instruction component is included in the CG when the publishing entity wants to clarify the IG instructions for submission of specific electronic transactions. The Transaction Instruction component content is limited by ASC X12's copyrights and Fair Use statement.

Transaction Instruction (TI)

Introduction

Background

Overview of HIPAA Legislation

The Health Insurance Portability and Accountability Act (HIPAA) of 1996 carries provisions for administrative simplification. This requires the Secretary of the Department of Health and Human Services (HHS) to adopt standards to support the electronic exchange of administrative and financial health care transactions primarily between health care providers and plans. HIPAA directs the Secretary to adopt standards for transactions to enable health information to be exchanged electronically and to adopt specifications for implementing each standard HIPAA serves to:

- Create better access to health insurance
- Limit fraud and abuse
- Reduce administrative costs

Compliance According to HIPAA

The HIPAA regulations at 45 CFR 162.915 require that covered entities not enter into a trading partner agreement that would do any of the following:

- Change the definition, data condition, or use of a data element or segment in a standard
- Add any data elements or segments to the maximum defined data set
- Use any code or data elements that are marked “not used” in the standard’s implementation specifications or are not in the standard’s implementation specification(s)
- Change the meaning or intent of the standard’s implementation specification(s)

Medi-Cal Companion Guide Transaction Information

Page updated: October 2021

Compliance According to ASC X12

ASC X12 requirements include specific restrictions that prohibit trading partners from:

- Modifying any defining, explanatory or clarifying content contained in the implementation guide
- Modifying any requirement contained in the implementation guide

Intended Use

The Transaction Instruction component of this companion guide must be used in conjunction with an associated ASC X12 Implementation Guide. The instructions in this companion guide are not intended to be stand-alone requirements documents. This companion guide conforms to all the requirements of any associated ASC X12 Implementation Guides and is in conformance with ASC X12's Fair Use and Copyright statements.

Included ASC X12 Implementation Guides

This table lists the X12N Implementation Guides for which specific transaction instructions apply and which are included in Section 3 of this document.

Unique ID	Name
ISA02	Submitter ID & Software Version Number
005010X279A1	Health Care Eligibility Benefit Inquiry and Response (270/271)
005010X212	Health Care Claim Status Request and Response (276/277)
005010X222A1	Health Care Claim: Professional (837)
005010X223A2	Health Care Claim: Institutional (837)

Note: Express Permission to use X12 copyrighted materials has been granted by ASC12 TR3s for all X12 Transactions are available at the [ASC X12 store](#).

Instruction Tables

These tables contain one or more rows for each segment for which a supplemental instruction is needed.

005010X279A1 Health Care Eligibility Benefit Inquiry

Loop ID	Reference	Name	Codes	Notes/Comments
2100A †	NM1	Information Source Name	None	None
2100A ‡	NM109	Identification Code	None	Medi-Cal expects to receive: 610442
2100B†	NM1	Information Receiver Name	None	None
2100B ‡	NM101	Entity Identifier Code	1P	Medi-Cal expects to receive the value listed in the codes column.
None ‡	NM108	Identification Code Qualifier	SV XX	Medi-Cal expects to receive one of the values listed in the codes column.
2100B†	REF	Information Receiver Additional Identification	None	None
2100B‡	REF01	Reference Identification Qualifier	4A	For Batch, Medi-Cal expects to receive the value listed in the codes column.
2000C†	HL	Subscriber Level	None	None
2000C‡	HL01	Hierarchical ID Number	None	Medi-Cal expects to receive the following: For Leased-Line and Dial-Up: 3 For Batch: Increment this for each Subscriber entered, from three and up to 99 Subscribers
2100C†	REF	Subscriber Additional Identification	None	None
