

Newborn Gateway Application**Instructions to the provider:**

- Presumptive Eligibility providers **must** report the births of infants with Medi-Cal or Medi-Cal Access Infant Program (MCAIP) linkage born in their facilities within 72 hours of birth or one business day after discharge, whichever is sooner.
 - Facilities include hospitals, birthing centers, or other birthing settings.
 - Parents or guardians are **not** required to complete or sign the application. If the parents or guardians are not available, submit the application through the Newborn Gateway section of the Children’s Presumptive Eligibility portal.
 - An application is needed for each infant.
- Newborns born to Medi-Cal or Medi-Cal Access Program (MCAP) mothers qualify for medical coverage when the birth is reported through the Newborn Gateway. Complete and submit the information below to enroll the newborn into coverage.
- Regardless of whether the newborn is approved or denied for coverage, the provider must issue an insurance affordability application to the family and let them know it can be used to apply for health insurance coverage for anyone who does not have it. The insurance affordability application, sometimes referred to as a Single Streamlined Application, is available to print from the resource section of the portal.
