

Managed Care Plan Attestation Download Process and Data Element Dictionary

General Information

The online ACA Self Attestation Form shall be used to register and certify a physician's eligibility to provide the specified Evaluation and Management (E&M) and Vaccine Administration services for which the Patient Protection and Affordable Care Act (ACA) and 42 *Code of Federal Regulations* (CFR) 447 enhanced payments are made.

This ACA Primary Care Physician Self Attestation data shall be made available for download to Managed Care Plans (MCPs) for use in determining whether the physician rendering or supervising the service has personally attested to the following:

- A physician, as defined in 42 CFR 440.50 with a specialty designation of family medicine, general internal medicine, pediatric medicine or a subspecialty within one of the listed specialties

AND

- Meeting at least one of the following qualifications:
 - Board certified in a specialty or subspecialty that is recognized by the American Board of Medical Specialties (ABMS), American Board of Physician Specialties (ABPS) or American Optometric Association (AOA)
- OR
 - At least 60 percent of total claims billed or paid for the most recently completed calendar year or, for newly eligible physicians, the prior month, were for E&M (99201 – 99499) and Vaccine Administration (90460, 90461, 90471 – 90474, or their successors) services or local codes that correspond to these E&M and Vaccine Administration codes

MCPs are not required to use the California Department of Health Care Services (DHCS) self attestation data and may utilize a proprietary registry. However, if a plan chooses to use their own registry system, proposed arrangements must be submitted to the DHCS for review and approval prior to use.

For additional questions/information regarding the ACA self attestation process, please contact the Telephone Service Center (TSC) at 1-800-541-5555, choose options 4 and 2, and then follow the prompts to speak with the POS/Internet Help Desk. For hours of operation, providers may refer to the *Provider Relations Directory* section in the Part 1 manual.

Download Process

The ACA Primary Care Physician Self Attestation Data shall reside on the California DHCS Medi-Cal website under Transaction Services. MCPs may access this data the same way they would access/download their encounter data using the same user ID and password.

The self attestation data file shall be provided in the form of an encrypted zipped comma delimited (*.csv), ASCII file to allow MCPs to easily manipulate the data to suit their individual needs. The columns shall be delimited by the "|" (pipe) character, and thus the attestation data will not contain any special formatting or be in report format. The password to decrypt the zipped file shall be the same password that is used to log on to Transactions Services on the Medi-Cal website.

The ACA Primary Care Physician Self Attestation File shall be updated, as a full replacement file, at approximately 4 a.m. each day. This file will contain all existing attestation data plus any updates that were made the previous day. MCPs should perform the following actions to download the self attestation file:

1. Go to the California DHCS' Medi-Cal website:
<http://www.medi-cal.ca.gov/>.
2. Click the "Transactions" Tab.
3. Enter MCP User ID.
Note: MCPs who do not have a User ID and Password should contact DHCS to request/register for logon credentials.
4. Enter MCP Password.
5. Click the "Submit" Button.
6. Click the "ACA Attest – MCO Download" Link.
7. Click the "UUUUUUUUUCCYMMDD.zip" Link.
Note: "UUUUUUUUU" represents the MCP User ID.
8. Open/save the zipped file using a zip/un-zip utility and the MCP password.
9. The un-zipped/decrypted "csv" file is delimited by the "|" (pipe) character. Import into Microsoft Excel or the proprietary system for use to suit individual needs.

ACA Primary Care Physician Self Attestation File – Data Element Dictionary

The ACA Primary Care Physician Self Attestation File captures most of the data provided by physicians wishing to attest to their eligibility to provide specified E&M or Vaccine Administration services for which the ACA and 42 CFR 447 enhanced payments are made. The following Data Element Dictionary describes each individual field, format, and length on the self attestation file.

Important Note: Depending on the number of non-physician medical practitioners, board certifications and/or updates made by the user, the self attestation file can contain multiple rows that correspond to a single physician/record. Therefore, a single attestation record shall consist of the first row of the "Attest_ID"/"NPI_id" to the row immediately prior to the next "Attest_ID"/"NPI_id".
