

LTC Code and Claim Conversion: Forthcoming TAR Changes

Effective for dates of service on or after February 1, 2024, the fee-for-service Long Term Care (LTC) local service codes and the local *Payment Request for Long Term Care (25-1)* claim form are replaced with HIPAA-compliant national code sets and the *UB-04* claim form.

With the fee-for-service LTC code and claim form conversion, LTC providers can expect to prepare and submit *Treatment Authorization Requests (TARs)* and electronic TARs (eTARs) according to the instructions below.

TAR Changes

Effective for dates of service on or after February 1, 2024, an 11-digit TAR Control Number (TCN) is required on the *UB-04* claim form.

- For providers who submit electronic TARs (eTARs), a 10-digit number is provided, and the provider must add a zero at the end to complete the 11-digit TCN.
- For providers who submit TARs using the paper LTC TAR (20-1) form, a nine-digit number is provided, and the provider must add two zeros at the end to complete the 11-digit TCN.

Note: Do not attach a copy of the LTC TAR to the *UB-04* claim form. Enter the TCN only in the appropriate space, Box 63, of the *UB-04* claim form.

Additionally, the LTC code and claim form conversion requires all LTC TARs are requested using Level of Care codes, including Bed Hold requests.

Note: Existing TARs can continue to be used with their existing Level of Care codes. New TARs for dates of services on or after February 1, 2024, should be requested for Level of Care codes according to the instructions below.

The TAR Level of Care codes and their corresponding Revenue Code, Value Code and Value Code Amount combinations are as follows:

Note: Refer to the [LTC Accommodation Code to Revenue Code, Value Code and Value Code Amount Crosswalk](#) for the appropriate combination of Value Code 24 (Medicaid Rate Code), Value Code 24 Amounts (Designated State Level Medicaid Rate Code), and Revenue Code.

Long Term Care Facilities – Level of Care (Regular Services)

Value Code Amount (DSL MRC)	Value Code Amount Description	TAR Level of Care Code	TAR Level of Care Code Description

Legend

Notes used in the document above are explained in the following table.

Note	Description
Note 1	Value Code Amount (DSL MRC) – 02, 03, 05, 08, & 09. If the provider already has a base NF-B TAR for Level of Care 23 (NF-B SNF), this will also cover NF-B Leave, if necessary. Otherwise, if only leave of absence is needed, it can be requested with a NF-B TAR for Level of Care 25 (NF-B Leave).
Note 2	Value Code Amount (DSL MRC) – 12. If the provider already has a base NF-B TAR for Level of Care 24 (NF-B STP MD; NF-B STP Rehab), this will also cover NF-B STP Leave, if necessary. Otherwise, if only leave of absence is needed, it can be requested with a NF-B TAR for Level of Care 25 (NF-B Leave).
Note 3	Value Code Amount (DSL MRC) – 22 & 23. If the provider already has a base NF-A TAR for Level of Care 21 (NF-A ICF), this will also cover NF-A Leave, if necessary. Otherwise, if only leave of absence is needed, it can be requested with a NF-A TAR for Level of Care 26 (NF-A Leave).
Note 4:	Value Code Amount (DSL MRC) – 32. If the provider already has a base NF-A TAR for Level of Care 22 (NF-A STP Rehab), this will also cover NF-A STP Rehabilitation Leave, if necessary. Otherwise, if only leave of absence is needed, it can be requested with a NF-A TAR for Level of Care 26 (NF-A Leave).
Note 5	Value Code Amount (DSL MRC) – 43 & 44. If the provider already has a base ICF/DD TAR for Level of Care 31 (ICF-DD), this will also cover ICF/DD Leave, if necessary. Otherwise, if only leave of absence is needed, it can be requested with an ICF/DD TAR for Level of Care 35 (ICF-DD Leave).
Note 6	Value Code Amount (DSL MRC) – 63 & 68. If the provider already has a base ICF/DD-H TAR for Level of Care 32 (ICF-DDH), this will also cover ICF/DD-H Leave, if necessary. Otherwise, if only leave of absence is needed, it can be requested with an ICF/DD TAR for Level of Care 35 (ICF-DD Leave).
Note 7:	Value Code Amount (DSL MRC) – 64 & 69. If the provider already has a base ICF/DD-N TAR for Level of Care 33 (ICF-DDN), this will also cover ICF/DD-N Leave, if necessary. Otherwise, if only leave of absence is needed, it can be requested with an ICF/DD TAR for Level of Care 35 (ICF-DD Leave).
Note 8	Value Code Amount (DSL MRC) – 73, 74, 77, 78, 87, 88, 93, & 94. If the provider already has a base Subacute TAR for Level of Care 11 (Subacute), this will also cover Subacute Bed Hold, if necessary. Otherwise, if only bed hold is needed, it can be requested with a Subacute Bed Hold TAR for Level of Care 12 (Subacute Bed Hold).
Note 9	Value Code Amount (DSL MRC) – 79, 80, 81, 82, 89, 90, 95, & 96. If the provider already has a base Subacute TAR for Level of Care 11 (Subacute), this will also cover Subacute Leave, if necessary. Otherwise, if only leave of absence is needed, it can be requested with a Subacute Leave TAR for Level of Care 13 (Subacute Leave).
