Prenatal Tdap Immunization Resources for Prenatal Care Providers

Implement Strategies to Increase Prenatal Tdap Vaccination at your Practice

Check out the San Francisco Department of Public Health's <u>Prenatal</u> <u>Tdap Vaccination Toolkit</u> to get ideas on conducting quality improvement and implementing an action plan to increase prenatal Tdap vaccination. Listen to the American College of Obstetricians and Gynecologists' (ACOG) <u>webinar</u> on successful strategies for creating a sustainable immunization program.

Coding and Billing Resources for Vaccine Reimbursement

Overcome reimbursement barriers to administering vaccines during pregnancy by ensuring correct CPT codes. ACOG provides coding and billing resources for <u>general immunization administration</u>, as well as specific to Tdap administration on page six of their <u>Tdap toolkit</u>.

Share London's Story with Patients and Colleagues

Stories of vaccine-preventable diseases are powerful tools for raising awareness and patient education. Share <u>baby London's</u> <u>story</u> of developing pertussis with your patients and colleagues to stress the importance of prenatal Tdap vaccination.

Make a Strong Vaccine Recommendation and

Referral

ACOG provides an <u>FAQs document</u> that includes sample language for making a strong recommendation for Tdap during the third trimester of every pregnancy and addressing patient concerns.

For practices that do not stock and administer Tdap or influenza vaccines on-site, the Centers for Disease Control and Prevention offers tips on <u>Making a Strong</u> <u>Vaccine Referral to Pregnant Women</u> to increase patient follow through with the referral.

Get Free Patient Materials

Order materials from your local <u>health</u> <u>dept</u>. or visit EZIZ.org to download <u>pertussis prevention materials</u> from the California Dept. of Public Health.
