6. Once the PE4PW application is submitted, the transaction is processed, and one of the following real-time response messages are displayed.

PE4PW Application Message Response

Once the application is submitted, the PE4PW Application is sent to the Medi-Cal Eligibility Data System (MEDS), which determines the individual's PE4PW eligibility. After a short period of time, the MEDS returns a response message that appears in the browser. The individual and provider must read the response message carefully because it contains important information.

The response message will indicate one of the following:

- Temporary Medi-Cal eligibility is approved or denied.
- Eligibility for no-cost Medi-Cal coverage for ambulatory prenatal care and prescription drugs for conditions related to pregnancy.
- The program for which the individual is currently eligible (Medi-Cal).
- If denied, the denial reason.
- A system error message while processing transaction.

Important:

If the client signature line appears in the response message, the response message must be printed and can be used as an Immediate Need Eligibility Document. The individual must sign the Immediate Need Eligibility Document on the client signature line. The individual uses the signed printout as a temporary BIC until they receive a permanent BIC in the mail (if continuing Medi-Cal benefits are approved after the individual applies for insurance affordability programs).

- Individuals **do** sign the Immediate Need Eligibility Document if they are approved and do not have a BIC, or if they are already in a program and do not have a BIC.
- Individuals **do not** sign the response printout if they are denied service through the PE4PW program, or if they already have a BIC.

If necessary, the individual can use this *Immediate Need Eligibility Document* through the expiration date printed on the response or later if there is a pending Medi-Cal application.

Note: If the application is missing information, you will receive an error message asking you to complete the required fields before sending. Refer to the response messages later in this user guide for response message examples or contact Medi-Cal using the information in the "Reporting Problems" section of this guide.
