

State of California Department of Health Care Services

**Breast & Cervical Cancer Treatment Program (BCCTP)
Application Information & Instructions for Providers**

***FOR PROVIDER/OFFICE USE ONLY* (Rev. 12/2019)**

This checklist is to assist Every Woman Counts (EWC) & Family Planning Access, Care, and Treatment (FPACT) Enrolling Providers in determining if an individual is eligible to submit an application for a BCCTP program.

1) Is this individual a California resident with the intent to stay?

No = cannot apply; Yes = continue to #2

2) Does this individual have gross income at or below the 200% FPL?

No = cannot apply; Yes = continue to #3

- See the EWC or FPACT Income Criteria chart.
- All earned and unearned income (before any taxes, deductions, or expenses) is counted.
- Total number of persons counted in the household are applicant, spouse, and children under 21.
- If the child is not the biological child, applicant must be able to produce a legal document stating they are now responsible for the child.
- The income of elderly parents or relatives living in the home is not counted towards the applicant's income; they are also not counted in the household number regardless of inclusion for tax reporting.

3) Does this person have a BCCTP qualifying diagnosis?

No = cannot apply; Yes = continue to #4

- After log-in, see list of qualifying diagnoses on the drop down menu in the BCCTP on-line application.
- If a diagnosis is not on the drop-down list or is unclear, you may fax the pathology report to (916-440-5693) with questions or email the pathology report to BCCTP@dhcs.ca.gov, requesting to have the pathology report reviewed by a Medical Consultant. A BCCTP Eligibility Specialist will contact you with a response.

4) Does this person already have full scope Medi-Cal benefits?

Yes = cannot apply; No = continue to #5

- Individuals who have restricted scope emergency and pregnancy benefits, or Share of Cost (SOC) Medi-Cal benefits, are eligible to apply for BCCTP.

5) Does this person have private insurance or Medicare? Yes/No = Can Apply

- Individuals with private insurance or Medicare are eligible to apply for BCCTP if they meet the first four (4) requirements listed above.

Submit an application only if the applicant meets the requirements in Questions 1 - 4.

Note: If a provider does not elect to process a BCCTP application for an individual that was screened elsewhere, refer the individual to apply for Medi-Cal in order to be referred to BCCTP. If the individual already has restricted or SOC Medi-Cal, they should contact their county eligibility worker and request to be referred to BCCTP. BCCTP will not accept county referral documents directly from the beneficiary or any medical provider.

Prior to contacting BCCTP, please check the Medi-Cal database (MEDS) after 10 working days from application submission for case status.

Important information about Presumptive Eligibility (PE)

Not all individuals will get immediate PE benefits. All applications submitted to BCCTP are considered for Federally-funded PE benefits. These benefits are temporary and date specific. PE benefits are approved until the end of the month following the application month. All applicants must apply for Medi-Cal in order to extend their benefits. Once the application is submitted to the county (via Internet, phone, or in-person), their PE benefits continue until the county completes a determination. Date specific means, that if continuing BCCTP benefits are denied, the eligibility is from the date applied to the date denied. Applicants determined eligible for PE will not receive benefits prior to their application date. Applicants denied PE benefits are evaluated for the BCCTP State-funded programs.

- If the applicant is approved for PE, inform them that they can get immediate care by using their confirmation document with their Beneficiary Identification Card number.
- Make the applicant aware of the requirement to apply for Medi-Cal and provide the “Directions to Apply for Medi-Cal” document. PE benefits will terminate the end of the month following the date their BCCTP application was submitted.
- Applicants meeting one or more of the following criteria will **not** receive Federally-funded PE benefits. Their completed/signed application should be forwarded to the BCCTP for evaluation for State-funded BCCTP benefits.
 - Age 65 or older.
 - Have other comprehensive coverage (Medicare, or private insurance).
 - Have received PE benefits within the last 12 months (hospital emergency or pregnancy).
 - Are already identified in the Medi-Cal database as having unsatisfactory immigration status.
- Inform the applicant that they are not guaranteed State-funded BCCTP benefits until the final BCCTP determination is processed.

BCCTP Requirement: Applying for Medi-Cal

ALL applicants that have not had a Medi-Cal determination within the last 30 days must apply for and receive an eligibility decision before BCCTP will make a final determination.

- Applicants that currently have active restricted scope Medi-Cal do not need to reapply.
- Enrolling Providers should not wait until the county makes a decision to submit a BCCTP application.
- Do not send individuals to apply for Medi-Cal if they did not meet the first four (4) requirements as indicated on the opposite page.

Note: *If you have any questions or require corrections to the application after submitting, please contact BCCTP via email (BCCTP@dhcs.ca.gov), or fax (916) 440-5693; BCCTP will make all edits/corrections. Do not submit multiple applications for the same person, unless a BCCTP staff has instructed you to do so.*
